

What's New on Knowledge Mosaic

Check out the latest: new features and notable upgrades **released in March 2012**.

Embrace abundance with **Knowledge Mosaic**.

Comprehensive Real-Time Alerting

Receive email alerts on anything and everything you want to watch – merger agreements, FDA Warning Letters, bills in the current Congress, FCPA Enforcement Actions, SEC No-Action Letters—the list is almost endless. Our new **expanded alerting system** is not only vaster in scope (it now includes almost all the primary data on our site), it's also faster and more powerful, allowing you to custom-build better, more targeted queries.

Lobbying Disclosure

Find out who's paying and who's being paid to influence, which federal agencies are being courted, and what issues are generating attention. This new page, still in beta version, employs **pivot table technology** to allow you to slice and dice lobbying data in ways not possible anywhere else.

Key Securities Compilations

Get **complete PDFs of important securities rules and laws**, including the Acts of '33 and '34, the Investment Company and Investment Advisers Act of '40, and key rules such as Regulation S-X, Regulation S-K, and Regulation M-A.

Judicial Developments

We offer a "**Recent Judicial Opinions of Note**" section that highlights selected Federal Appellate court cases for last 30 days, including summaries of the decisions. The focus is on securities, financial services, communications, and energy law cases.

SEC Comment Letters page

Released in January, this lightning-fast, next-generation **SEC Comment Letters search page** represents a quantum leap over its predecessor. Using a faceted search environment, you can view all letters in a related comment letter thread, compile them into a single PDF, and filter by subject filing form type, industry, and location.

IPO Searching

On our **SEC Filings page**, we now offer a filter for **IPO filings** that includes all the filings associated with the initial public offering process: registration statements, prospectuses, prospectus supplements, and notices of effectiveness. We've also added the **IPO filter** to our **Registrations Search page**.

Law Firm Memos Boost

Under the hood of our **Law Firm Memos page**, a new search engine allows law firm memo searching to be faster, easier, and return many more relevant results.

Abundant Search

Since our last major release, we've added **a dozen new agencies** and **hundreds of new data sets** to our **Laws, Rules, and Agency Materials search page**. Topics covered include Antitrust & Competition, Communications & Technology, Energy & Environment, Food, Health & Medicine, and Labor & Employment.

New distribution of agency materials (by number of records)

Bills & Legislation Facets

Now, when you drill down into the **Bills & Legislation category** on our **Laws, Rules, and Agency Materials search page**, you'll be able to refine your search by Sponsor and Co-Sponsor (e.g., Senator Rand Paul -KY), Committee (e.g., Senate Budget Committee), and Subject (e.g., foreign and international banking).

Document Category Facets for Agency Materials

Our **Laws, Rules, and Agency Materials search page** now **offers new facets** that show how your search breaks down by general document category- including Enforcement, Guidance, Notices & Orders, and Rulemaking.

Knowledge Mosaic Home Page

Our **new home page** is at once a window, a dashboard, and a showcase. It's a window into today's happenings in Congress, federal agencies and courts, and business and industries affected by federal regulation. It's a dashboard to help you easily find what you need on our website. And it's a showcase of the kind of information Knowledge Mosaic can connect you to.
